

# BISCUITS AND CRACKERS

Confectionery Yarych is a powerful combination of modern technology, uncompromising quality and top specialists. We are a team of professionals who know how to create the perfect biscuits and crackers.

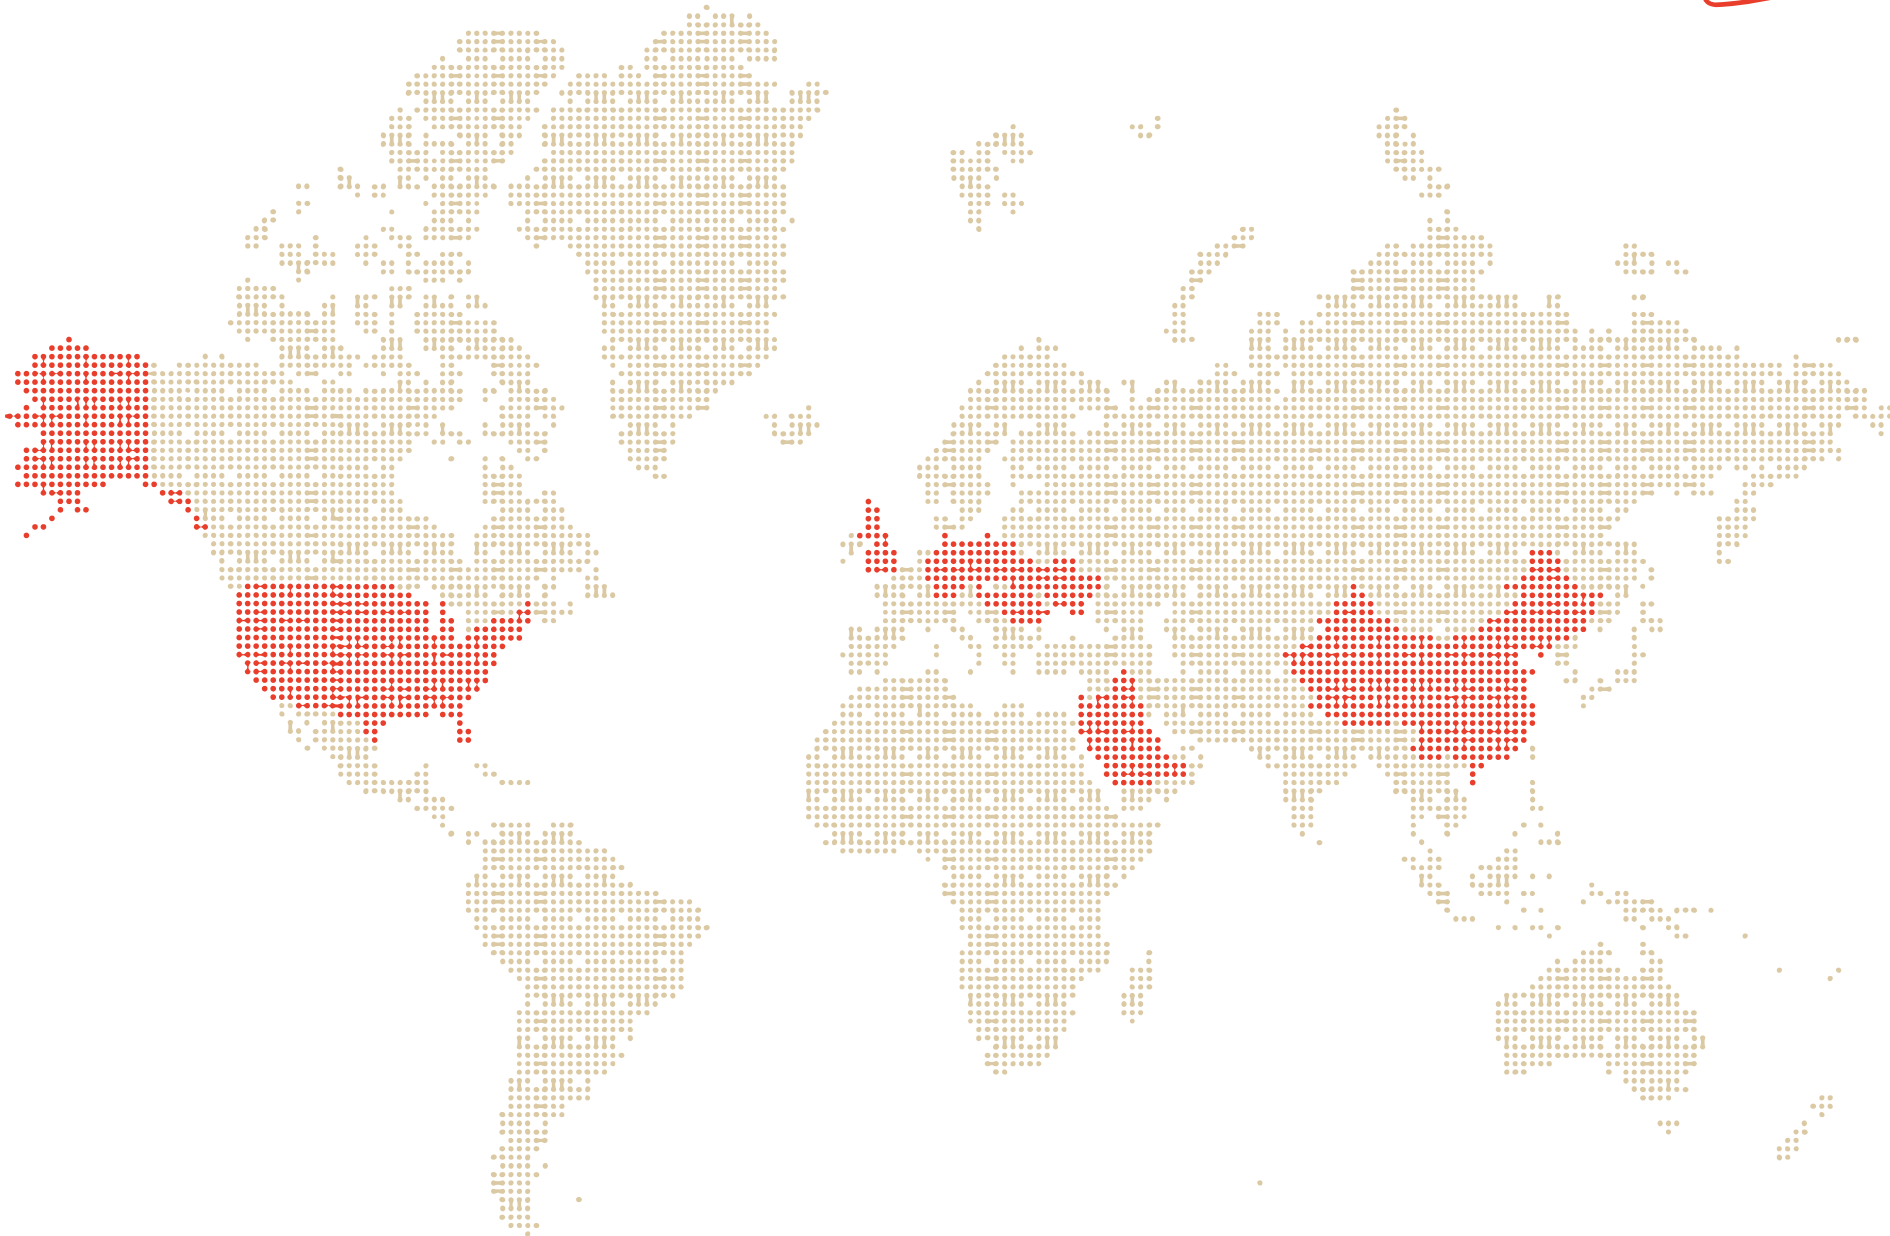

Maria PETIT BEURRE Party time The Crackers kids

**Confectionery Varych takes the 1st place in the segment of short dough biscuits and crackers in Ukraine with the market share of 33%**

The products of the Confectionery Varych are popular in Ukraine and gaining popularity abroad. We have been actively developing export since 2014 and now our products are sold on 3 continents of the world: Europe, North America and Asia.

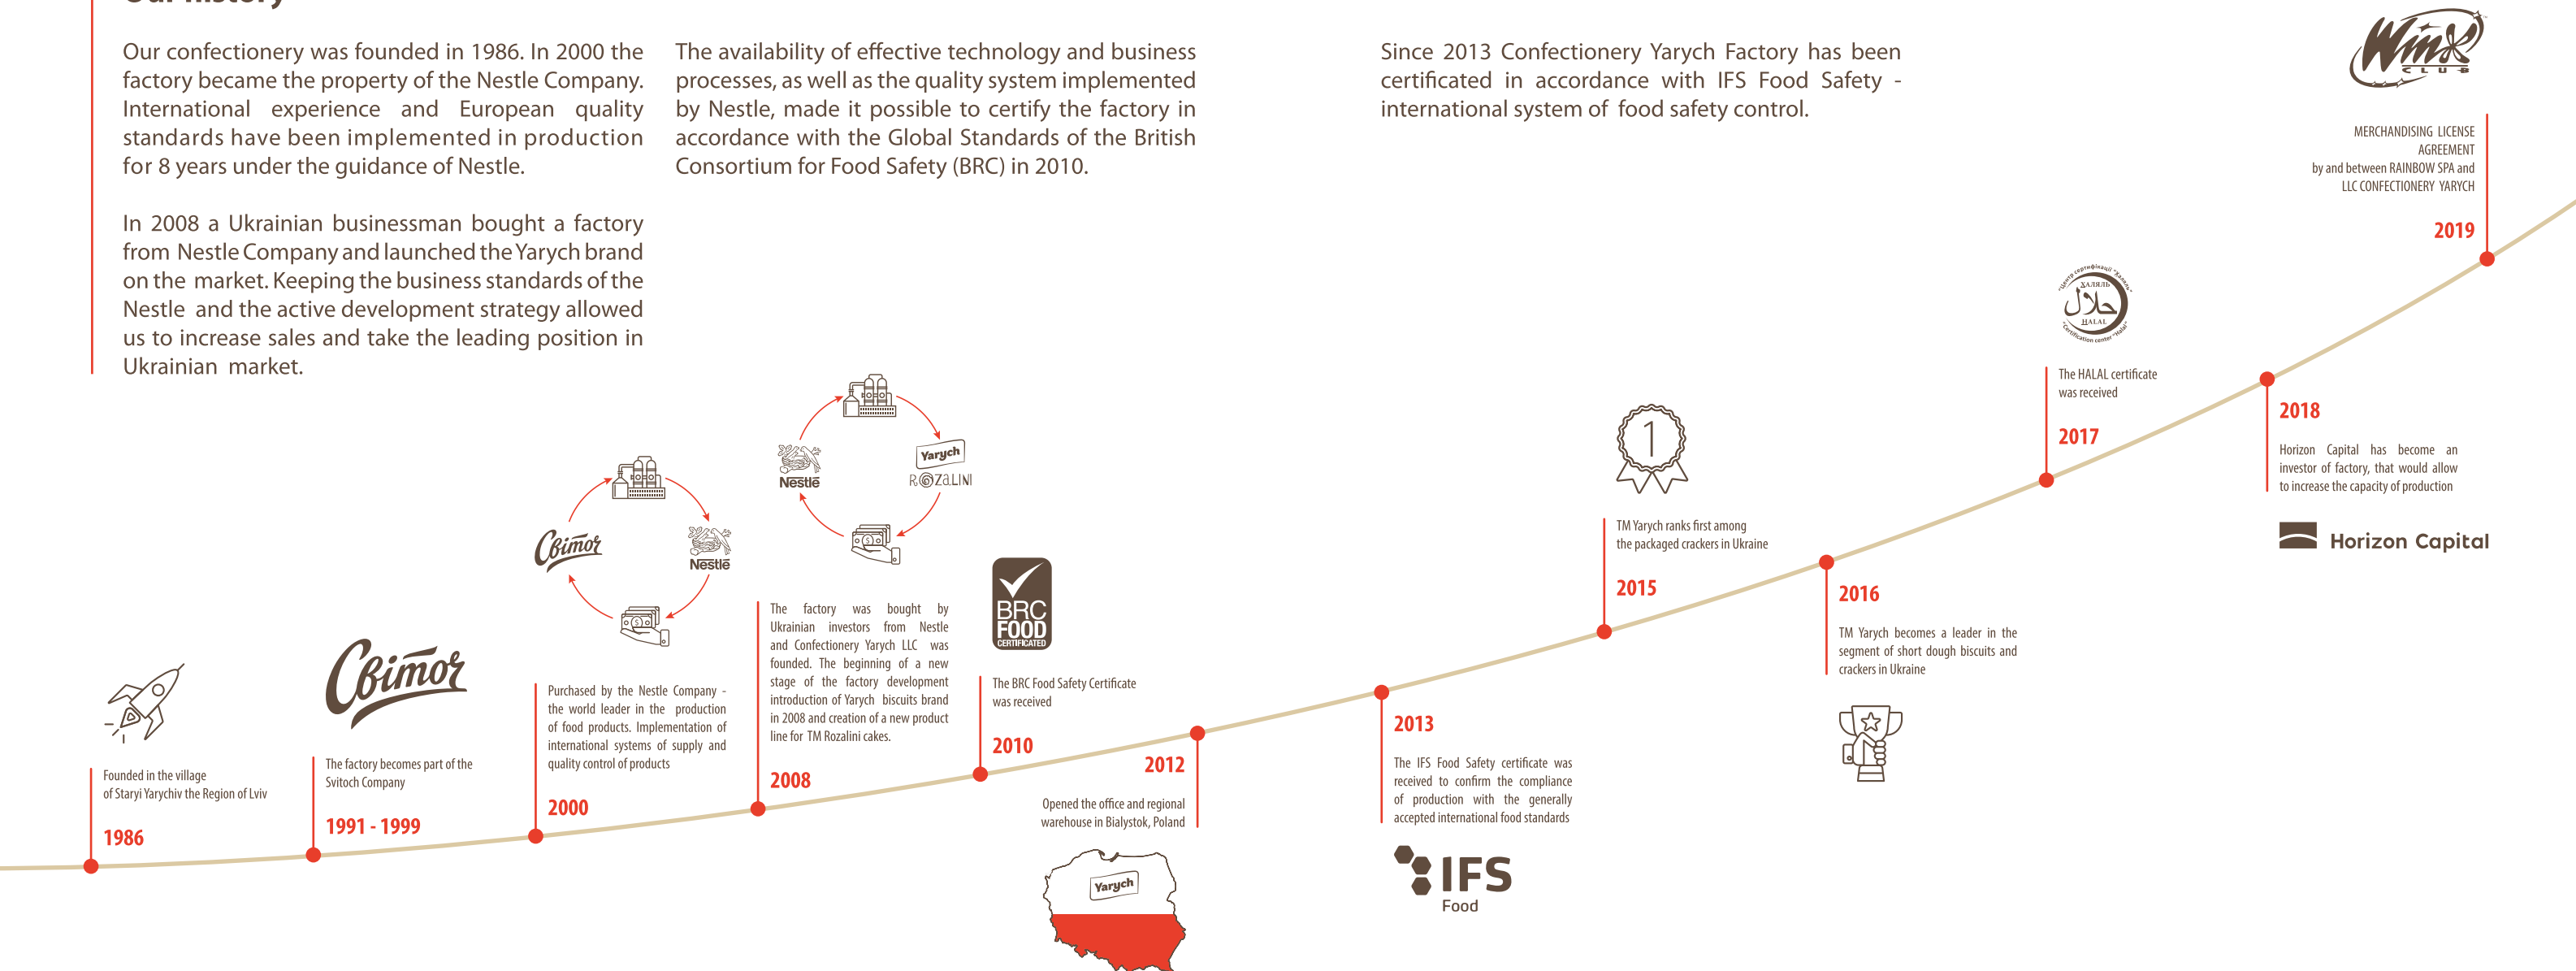

## Our history

Our confectionery was founded in 1986. In 2000 the factory became the property of the Nestle Company. International experience and European quality standards have been implemented in production for 8 years under the guidance of Nestle.

In 2008 a Ukrainian businessman bought a factory from Nestle Company and launched the Yarych brand on the market. Keeping the business standards of the Nestle and the active development strategy allowed us to increase sales and take the leading position in Ukrainian market.

The availability of effective technology and business processes, as well as the quality system implemented by Nestle, made it possible to certify the factory in accordance with the Global Standards of the British Consortium for Food Safety (BRC) in 2010.

Since 2013 Confectionery Yarych Factory has been certificated in accordance with IFS Food Safety - international system of food safety control.

Quality

In order to ensure a high level of safety and quality products, Confectionery Yarych has introduced a European system based on IFS Food standards. This implies the compliance of production with all sanitary norms, regulations and regulatory standards for hygiene. All staff members continuously undergo training in accordance with the rules and regulations of IFS Food.

This allows the company to produce the highest quality products, that confirmed by regular audits by an independent European commission.

Quality of products is the first priority of Confectionery Yarych. Its maintenance is ensured by a certified laboratory that provides organoleptic assessment, examination of all raw materials for compliance with physicochemical and microbiological quality criteria and gives permission for their use. The laboratory carries out precise quality control at all stages of the production process, including verification and examination of the final product.
